

# DRINKING FOUNTAIN PRECAUTIONS DURING COVID-19

## DRINKING SPOUT

To reduce the risk of transmission of COVID-19 and other germs, do not put your mouth directly on the spout of the drinking fountain.

## WATER BOTTLE REFILL

When refilling a reusable water bottle at a drinking fountain, make sure the mouth piece of your water bottle does not come into contact with the spout of the fountain.

## PRACTICE HAND HYGIENE

Wash hands with soap and water or use an alcohol-based hand sanitizer after touching any part of the drinking fountain, such as buttons, levers, or the sides.

**Remember to keep a physical distance of 2 metres from others when waiting to use the fountain.**
