

January 14, 2016

Important information regarding Flumist vaccine

- **Flumist vaccines will be expiring in February 2016!**
- Check the expiry dates on your Flumist vaccine stock.
- Vaccines should not be administered after the expiry date.
- Once expired, the vaccines should be removed from your fridge and returned to the Health Unit.
- When returning vaccines, complete the Cold Chain Inventory/Vaccine Return form and attach to the package.
- Children requiring a second dose may be given Fluzone or Fluviral if Flumist is not available.

If you have any questions or concerns, please call (519) 258-2146 ext 1121.
